

Personal Nurse: partnering with you on your health journey

We all could use a little extra help. Maybe you're learning to manage a new health condition. Or perhaps you have a simple question about your health. A Personal Nurse® takes the time to understand your unique situation. They provide education specific to your health and healthy lifestyle tips.

Personal Nurse is a phone-based service where you work one-on-one with a nurse, who is dedicated to helping you with your health at no additional cost as part of your Humana health plan. You can talk with your nurse about serious health issues, chronic conditions, medications and your overall well-being. You talk with the same nurse every time.

What does a Personal Nurse do?

- **May call you.** A Personal Nurse may reach out to you to understand your unique situation and provide education specific to your health, or you can call them at **877-416-8773**.
- **Helps you understand and manage your health conditions.** The nurse will help you identify health goals, explore treatment options with you, and guide you to resources so you can make informed decisions and take control of your health.
- **Advocates for you.** Your Personal Nurse will help you gain control of your health—not just manage your symptoms. The nurse will help you communicate with your caregivers and work with your doctor so you can make decisions with confidence.
- **Collaborates with you and your doctors as part of your care team.** The Personal Nurse service doesn't replace your doctor. Instead, your nurse will work with you to support you in following your doctor's treatment plan.

The nurse will help you communicate with your caregivers and work with your doctor so you can make decisions with confidence.
