Choosing a vision care plan from Humana can help you save more than just your vision

There are certain things in life that are must-haves. Vision insurance may not seem like one of them, but here's why it should be.

Did you know that many eye and vision problems have no clear symptoms?

That means something could be happening to your vision right now that you may not know about. The good news is that routine eye exams can catch these problems before they lead to permanent vision loss.¹

A vision care plan from Humana is a great option for anyone who wants to protect their eyes and save in the process. With affordable coverage on preventive services, you can feel good about taking good care of your eyes. And with additional discounts on eyewear and contact lenses, you won't lose sight of the must-haves in life.

Guaranteed approval — so you'll never be turned away for pre-existing conditions

Premiums range from just \$16 – \$18 a month for individuals.

Take a look at all you get in network:

- **Comprehensive vision exam** once every 12 months
- **Wholesale frame allowance** lets you avoid high retail markups and pay the same no matter which network doctor you choose
- **Eyeglass lenses covered** at 100 percent after materials copay
- **Allowance for elective contact lens** services and materials once every 12 months, 100 percent coverage on materials if medically necessary
- **Large network of 25,000 national providers** at 20,000 locations, including optometrists, ophthalmologists and opticians
- **Valuable discounts on laser vision** correction procedures

Enrolling is easy and affordable. Set your sights on a sound vision care plan from Humana.

How the wholesale frame allowance works:

Your benefits include a \$40 wholesale frame allowance, which typically equals a retail value between \$80 and \$120.* If you select frames with a wholesale cost of \$40 or less, you pay nothing.

If you choose frames over \$40 wholesale, you simply pay twice the difference in wholesale cost over the \$40 allowance.

wholesale price	wholesale allowance	= difference x2	Member Pays	Retail savings*
\$40	\$40	\$0	\$0	\$80 – \$120
\$70	\$40	\$60	\$60	\$80 – \$150

*Retail costs may differ and are based on two to three times the wholesale cost. Actual savings may vary.

We keep it simple

And we offer genuine customer care at every step. The benefits are easy to use and understand. Plus, there are **no claims to file**.
