# Help save money and your vision with a HumanaOne Vision Focus plan

When it comes to vision insurance, it's not unusual to question if it's worth the money or even if you really need it. But the question you may want to ask yourself is, "Can I afford not to get it?"

Many eye and vision problems begin without any clear symptoms. That means you may not be aware of diseases that could affect your vision in the future. Routine eye exams can help detect these problems. And early diagnosis and treatment can help prevent permanent vision loss.<sup>1</sup>

Choosing a **HumanaOne Vision Focus Plan** makes it easy and affordable to protect your eyes. We'll help you save on preventive services that can catch costly problems before they start. You'll also get discounts on eyewear, contact lenses and other services. You deserve quality coverage for vision health and now it's easier to afford.
