Be healthy

Good oral health means more than just an attractive smile. Research shows that oral health, preventive care and regular visits to the dentist is integral to overall health. For example, the Academy of General Dentistry says there is a link between gum disease and heart problems, and the American Academy of Periodontology says severe gum disease can increase blood sugar, increasing the risk among diabetics. The HumanaOne Dental Value Plan (C550) enables you to take better care of your teeth, and you'll pay less doing so.

HumanaOne Dental Value Plan (C550)

The HumanaOne Dental Value Plan (C550) focuses on maintaining oral health, prevention and cost-containment. A member may see a primary care dentist as often as necessary. There are no annual maximums, no deductibles to meet and no waiting periods. Copayments for listed procedures are applicable only at a participating general dentist.

Member costs listed here are for services provided by your chosen participating primary care dentist (PCD) only. As your dental professional, your PCD may decide that you need to see a contracted dental specialist. No referral is necessary to see a network specialist.

Specialists services: Should members need a specialist, (i.e., endodontist, oral surgeon, periodontist, pediatric dentist), they may be referred by a participating general dentist, or members can self-refer to any participating specialist. Visit HumanaOneNetwork.com to find a participating specialist.
