

2015 nonformulary and formulary alternatives list for commercial Rx3 and Rx4 drug lists

The drugs and supplies shown below are now nonformulary for Humana's commercial Rx3 and Rx4 drug lists. Members will pay the full retail price to fill a prescription for nonformulary items. Members should ask their health care provider to write a prescription for one of the following formulary alternatives. A nonformulary exception process exists for cases when nonformulary items are medically necessary and the formulary alternatives have not been as effective.
