## ¡Bienvenido a Humana!

Los cambios al formulario adjunto, o Lista de medicamentos, entran en vigor el 1 de enero de 2016.

Visite **Humana.com** e inicie sesión en MyHumana –su cuenta en línea segura y personal– a partir de la fecha de su renovación para ver los beneficios de medicamentos recetados específicos, incluidos los copagos o el costo compartido, las limitaciones y las exclusiones. También puede consultar su Certificado de cobertura/seguro o su Descripción resumida del plan/Póliza de seguro.

Si tiene preguntas: :

- Posibles afiliados: llamar a Atención al Cliente al número que aparece en los materiales de inscripción
- Afiliados actuales: llamar al número indicado al reverso de su tarjeta de identificación de Humana

### **Cómo leer los cambios a su Lista de medicamentos anual**

Algunos medicamentos cubiertos pueden tener requisitos adicionales o límites en la cobertura. Hable con su médico o proveedor de atención médica si su medicamento tiene un requisito adicional. Estos requisitos y límites pueden incluir:

**Estatus de la cobertura (CVG, por sus siglas en inglés):** Ciertos medicamentos que anteriormente no estaban cubiertos en virtud de los beneficios de su plan se agregarán a su Lista de medicamentos para 2016, mientras que otros medicamentos que quizás estaban cubiertos en el pasado, se eliminarán. Tenga en cuenta que si usted surte o repite la receta de cualquier medicamento no cubierto en virtud de los beneficios de su plan, quizás deba pagar el costo total de su medicamento recetado.

+ CVG (incorporación); CVG (sin cambios); - CVG (eliminación)

**Autorización previa (PA, por sus siglas en inglés):** Algunos medicamentos deben ser aprobados por anticipado para que su plan de farmacia los cubra. Para que estén cubiertos estos medicamentos, su médico debe obtener la aprobación o autorización previa de Humana. Los beneficios del plan no cubrirán este medicamento sin la autorización previa. En caso de que obtenga el medicamento primero sin la autorización previa, pagaría el precio completo.

+ PA (incorporación); +PA\* (la incorporación se aplica únicamente a los nuevos medicamentos recetados); PA (sin cambios); - PA (eliminación)

**Límites de cantidad (QL, por sus siglas en inglés):** Usted puede tener un límite en la cantidad que puede obtener de algunos medicamentos de una sola vez. Estos límites pueden aplicarse a algunos medicamentos, por motivos de seguridad o servicios de salud, y ayudan a evitar el uso inapropiado de estos medicamentos.

+ QL (incorporación); QL (sin cambios); - QL (eliminación)

**Terapia por fases (ST, por sus siglas en inglés):** A veces, más de un medicamento es eficaz para tratar una afección médica. Algunos medicamentos pueden costar menos pero aun así funcionan para usted. Antes de que una receta de medicamento sea surtida con un medicamento que cueste más, se le puede pedir que pruebe al menos con un medicamento diferente primero.

+ ST (incorporación); + ST\* (la incorporación se aplica únicamente a los nuevos medicamentos recetados); ST (sin cambios); - ST (eliminación)

**Medicamentos especializados (SP, por sus siglas en inglés):** Los medicamentos especializados son, generalmente, medicamentos de alto costo/alta tecnología que requieren condiciones especiales de despacho y control. La cobertura de medicamentos especializados varía según el plan.

+ SP (incorporación); SP (sin cambios); - SP (eliminación)
