## Welcome to Humana

The enclosed formulary, or Drug List, changes are effective January 1, 2017.

Please visit **Humana.com** and log in to MyHumana– your personal, secure online account – on or after your renewal date to view specific prescription medicine benefits, including copayments or cost-share, limitations and exclusions. You also can refer to your Certificate of Coverage/Insurance or Summary Plan Description/Policy of Insurance.

If you have questions:

- Prospective members: Call the Customer Care number listed in your enrollment materials
- Current members: Call the number on the back of your Humana member ID card

### How to read your annual Drug List changes

Some covered medicines may have additional requirements or limits on coverage. Talk to your doctor or healthcare provider if your medicine has an additional requirement. These requirements and limits may include:

**Coverage status (CVG):** Certain medicines that were previously not covered under your plan benefits will be added to your Drug List for 2017, while other medicines that may have been covered in the past will be removed. Please note that if you fill or refill any medicine that is not covered under your plan benefits, you may have to pay the full cost of your prescription.

+ CVG (addition); CVG (no change); - CVG (removal)

**Prior authorization (PA):** Some medicines need to be approved in advance to be covered under your pharmacy plan. For these medicines to be covered, your doctor must get approval or prior authorization from Humana. Your plan benefits won't cover this medicine without prior authorization. Should you get the medicine first without the prior authorization, it would cost the full price.

+ PA (addition); +PA\* (addition applies only to new prescriptions); PA (no change); - PA (removal)

**Quantity limits (QL):** You may have a limit on how much you can get of some medicines at one time. These limits can be placed on some medicines because of safety or healthcare concerns and help prevent misuse of these medicines.

+ QL (addition); QL (no change); - QL (removal)

**Step therapy (ST):** Sometimes more than one medicine works to treat a health condition. Some medicines may cost less but still work for you. Before a prescription is filled for a medicine that costs more, you may be asked to try at least one other medicine first.

+ ST (addition); +ST\* (addition applies only to new prescriptions); ST (no change); - ST (removal)

**Humana.com**

**Specialty medications (SP):** Specialty medications are typically high cost/high-technology medicines that need special dispensing and monitoring. Specialty medicine coverage varies by plan.

+ SP (addition); SP (no change); - SP (removal)
