D4346	Detailed narrative*, periodontal charting*** and preoperative radiographs****; full mouth radiograph (not a panoramic film)	D9220 through D9243	Anesthesia records and detailed narrative*
D4381	Current periodontal charting*** and prior periodontal history including dates of service, teeth, arches and or quadrants		

\*A detailed narrative should include any pertinent diagnostic data, a description of any unusual circumstances that impacted the treatment and the reason the procedure was performed.

\*\*Prior carrier information is needed only when a tooth extraction was done prior to the member becoming effective with Humana.

\*\*\* Periodontal charting must be dated within one year of the date of service.

\*\*\*\* X-rays must be dated within 5 years of the date of service.

Humana does not request that radiographs be taken solely for benefit determination purposes. Radiographs should be dated, properly labeled and of diagnostic quality according to accepted standards of care. Please do not send photocopies. DentalXChange Attachment Services or National Electronic Attachment (NEA) FastAttach™ can be used for submitting digital radiographs or other required attachments. While intraoral photographs are not required, Humana would be pleased to accept and review them if you feel that they will assist us in making a benefit determination.
