See how you may be able to save money on your prescriptions with Humana Pharmacy

Benefits of using Humana Pharmacy

Savings: On most Humana plans, there is a \$0 copayment on most Tier 1 generic medicines when you order a 90-day supply.¹ Plus, the pharmacy team works with you and your doctor to find medicines that may cost less. On average, mail-delivery pharmacies may save consumers and payers 15 percent on 90-day prescriptions.²

Convenience: There's no driving or waiting in line with Humana Pharmacy. Plus, you may be able to order just four times a year for even more convenience. Humana Pharmacy will remind you when it's time to refill medicines.

Safety: Humana Pharmacy's pharmacists check new prescriptions for accuracy and to avoid any interactions with other medicines you're taking. Heat-sealed bottles with tamper-resistant foil also help ensure quality and safety. If your medication needs to be refrigerated, a cold pack will be included in your order at no additional cost. Also, all of your prescriptions will be shipped in plain packaging so there's no reason to worry about anyone knowing what's inside.

Adherence: Mail-delivery pharmacy users are almost 8 percent more likely to take their diabetes-related medicine as their doctor prescribed than those who use retail pharmacies.³

The life of a prescription

1. Humana Pharmacy gets your prescription request. Your doctor can send them your new prescriptions by fax, phone or electronically. Or you can send new prescriptions by mail.
2. The pharmacy checks your prescription benefits coverage, puts in your order and creates a unique shipment number. Your doctor’s instructions and prescription order are entered into their computers.
3. A pharmacist checks your prescription order for accuracy and possible drug interactions. If there are concerns or questions, a pharmacist will call your doctor.
4. Approved orders go through the payment process. If your health benefits don’t cover the medicine, their team will check the claim. If they cannot fill your prescription, they will call you and tell you why.
5. An automated system fills your medicine, and a pharmacist makes sure it matches the label before it’s shipped.
6. Humana Pharmacy mails the order to you with important information about your medicine.
