

# Vision health is good for your business

Humana Vision gives employees budget-friendly, comprehensive plan options to care for their eye health.

Eye health is more than just checking for vision changes and ordering new glasses. An annual eye exam can detect conditions like glaucoma, high cholesterol and diabetes. Humana Vision helps your employees save on their vision expenses—and protect their overall health.

## Features designed to fit your business and employees' needs:

- **Budget-friendly** — a low-cost addition in which you provide the benefit or employees buy it themselves (voluntary funding)
- **Additional diabetic eye exam, care and testing (in most plans)** — to help manage diabetes and help lower overall diabetes care cost
- **National network** — more than 70,000 participating independent optometrists, ophthalmologists and national retail eye exam locations

# How you can save with Humana Vision

As an example, Jason's annual vision expenses without a vision care plan were about \$670. With a Humana Vision plan, he could save close to **80% off retail cost**. Here's how:

|  | Jason's cost without Humana Vision | Jason's cost with Humana Vision | Jason's savings |
|--|------------------------------------|---------------------------------|-----------------|
| Exam                                   | \$70                               | \$10                            | \$60            |
| Frames                                 | \$225                              | \$52                            | \$173           |
| Varilux Comfort (premium progressives) | \$250                              | \$55                            | \$195           |
| Crizal Easy (anti-reflective)          | \$125                              | \$22                            | \$103           |
| <b>Total</b>                           | \$670                              | \$139                           | <b>\$531</b>    |

Data is based on the Humana Vision 160 Plan. Example is for illustration purposes only and individual results may vary.

With Humana Vision, Jason could save as much as \$531 on his vision expenses.
