

Commonly prescribed drugs Humana will cover

The commonly prescribed drug list is a guide to drugs in select therapeutic categories that will not be covered, and available formulary alternatives. This is not an all-inclusive list. Humana-covered patients must pay full retail price for drugs listed in the Non-PDL (Preferred Drug List) column. If your doctor feels a covered medicine does not work for you wouldn't work as well OR would have a negative effect on your health, he or she can call Humana Pharmacy Clinical Review at 1-800-555-2546 to ask for an exception. We will reply within 24 hours after we get your doctors request. Drugs listed in the covered alternatives category are covered and are the most affordable options.
