

Commonly prescribed drugs Humana covers

This commonly prescribed drug list is a guide to drugs in select therapeutic categories that are not covered and their respective available formulary alternatives. This is not an all-inclusive list. Humana Healthy Horizons-covered patients must pay full retail price for drugs listed in the "Nonformulary" column. If you feel a covered medicine does not work for your patient or would have a negative effect on their health, please call Humana Pharmacy Clinical Review at 800-555-2546 to ask for an exception. We reply within 24 hours after receiving a doctor request. Drugs listed in the "Covered Alternatives" category are covered and are the most affordable options.
