#### About your plan

Good oral health means more than an attractive smile. Research shows that oral health, preventive care and regular visits to the dentist are integral to overall health.<sup>1</sup>

The Dental Value HI215 is a dental HMO plan that covers preventive, basic and major dental services provided by the primary care dentist of your choice from our dental network. This plan has no waiting periods, no claims to file, no annual maximum, and no deductibles. Copayments for listed services are applicable only at a participating primary care dentist. Visit **Humana.com/Find-Care** to find a participating dentist.

Who can enroll in this plan – Anyone can enroll in this plan.

#### What to expect

- You will be required to choose a general dentist as your primary care dentist from our network when you enroll in this plan. If you wish to change your primary care dentist in the future, contact Customer Service or go to **HumanaOneMembers.com** to update your plan.
- The service copayments are paid directly to your primary care dentist when you receive dental care. Note, your primary care dentist may or may not provide services for all listed ADA codes.
- Services provided by specialists are not covered by these copays and in some instances are only available through a specialist, like oral surgery procedures. You may however receive services from an in-network specialist and may receive a 25% discount. To find an in-network dental provider, including specialists, visit **Humana.com/Find-Care.**

#### How your plan works

The following provides a summary of the Dental Value HI215 benefits. Services marked with a single asterisk (\*) require separate payment of laboratory charges. The laboratory charges must be paid to the primary care dentist in addition to any applicable copayment for the service.

\* Services marked with a single asterisk (\*) require separate payment of laboratory charges. The laboratory charges must be paid to the primary care dentist in addition to any applicable copayment for the service.

#### Note:

- If further clarification regarding your coverage and benefits is needed please ask your dentist for a pretreatment estimate.
- Not all participating dentists perform all listed procedures, including amalgams. Please consult your dentist prior to treatment for availability of services.
- Composite (white) fillings are only covered on anterior (front) teeth. An alternate benefit is allowed for composite fillings on posterior (back) teeth where the plan will cover the cost of an amalgam (silver) filling and the member is responsible for any cost over the covered amount.
- The above copayments do not include the additional cost of precious (high noble) and semi-precious (noble) metal.
- When crown or bridgework exceeds six units in the same treatment plan, the patient may be charged an additional \$75 per unit.

**Important to know:** Dental and vision plans, excluding Dental Savings Plus, may have a minimum one-year initial contract period. Payment may include an administration fee. A one-time, non-refundable enrollment fee may apply (the fee is non-refundable as allowed by state requirements). Applicable fees are disclosed at time of enrollment.
