

2022 HDHP Formulary Changes

Effective January 1, 2022

To view your full Drug List, [click here](#). Para visualizarlo en español, [haga clic aquí](#).

Certain medicines under the Humana Commercial Drug List will have changes to limitation or utilization management requirements for the 2022 plan year. These changes could mean higher or lower costs or changed requirements for Humana members who use these medicines. Humana encourages the use of generic and cost-effective brand medicines whenever possible. Below is a list of some commonly used medicines that have Humana Commercial Drug List utilization management edits in 2022 (e.g., non-formulary [NF] changes, tier/level changes [TC], prior authorization [PA], and step therapy [ST] requirements). Humana members are asked to talk to their doctor or health care professional about possible alternative medicines.

How to read your formulary changes

These requirements and limits may include:

Non-formulary (NF): Certain medicines that were previously covered under your plan benefits will be removed from your Drug List in 2022. If you fill or refill any medicine that is not covered under your prescription drug plan, you may have to pay the full cost of your medicine.

Level/tier change (TC): Covered medicines are grouped in different levels called “tiers.” If you fill or refill a prescription for a medicine or supply that’s moving to a different level, you may pay more or less.

Prior authorization (PA): Some medicines may need to be approved by Humana before it will be covered; this is called a prior authorization. Your doctor will need to contact Humana to get approval for these medicines to be covered by your prescription drug plan.

Step therapy (ST): Some medicines have a step therapy requirement, which means that you need to try at least one lower cost option before the medicine is covered.

Non-formulary (NF) Coverage Addition

Impacted Drug	Tier Impact	Alternative Drug
BELBUCA	NF to Tier 2	Adding coverage
NORDITROPIN FLEXPRO	NF to Tier 4	Adding coverage
WAKIX	NF to Tier 4	Adding coverage
