

# Commonly asked questions about Humana's Vision plan

## **What does the Humana Vision plan cover?**

Your vision plan covers annual routine eye exams, corrective lenses, frames and contact lenses, subject to the applicable copayments or limitations as listed in the employee brochure.

## **Can I visit my own doctor for services if he or she is not on the Humana Vision network?**

Yes. You would pay your doctor directly and submit the bills to Humana Vision for reimbursement according to a set schedule of allowances. However, more than 92% of all covered patients receive services from a network doctor.

## **How is the availability of covered frames handled?**

Basic Plan member's frame options have a retail value of up to \$84. Enhanced Plan member's frame options have a retail value of up to \$135. You may select any frame of your choice. If the selected frame exceeds the allowance, there will be an additional charge to the patient at a significant savings.

## **Are contact lenses covered?**

Yes. If contacts are prescribed for the medical reasons outlined in the master contract and performed by a network doctor, they will be provided on a paid in full basis subject to the copayment. If contacts are selected for non-medical reasons, Humana Vision Basic Plan will allow \$85 toward the cost of the contacts and the Enhanced Plan will allow \$120 toward the cost of the contacts.

## **Is there a discount on an additional pair of glasses?**

Yes. Humana Vision offers a 40% discount on a second pair of glasses and 15% discount on contact lenses (exam & fittings).

## **How do I enroll my family in the Humana Vision plan program?**

Complete the enrollment form provided by the Benefits Department and elect Humana Vision plan.
