

## Environmental Sustainability: Humana's CDP Responses

[CDP \(formerly Carbon Disclosure Project\)](#) is a not-for-profit charity that runs the largest global disclosure system for investors, companies, cities, states and regions to manage their environmental impacts. The world's economy looks to CDP as the gold standard of environmental reporting with the richest and most comprehensive dataset on corporate and city action. Humana has participated in CDP since 2010. View our more recent responses below.

### Environmental Reporting Assurance

A third-party assurance contractor was employed by Humana, Inc. ("Humana") to undertake the actions necessary to provide limited assurance verification of their GHG emissions for submission to the CDP. For more information on the assurance process and scope through 2021, see the [statement of assurance](#).

The 2022 CDP responses and statement of assurance will be published later in 2022.
