

## Simple and complex cataract surgery and YAG (Laser for Secondary/Recurring Cataracts) Capsulotomy

Preauthorization requests for the following procedures are reviewed by iCare Health Solutions, a utilization management company for Medicare Advantage Individual and Group plan members residing in Georgia. For more information, visit [myicarehealth.com/](https://myicarehealth.com/).

- Simple cataract surgery
- Complex cataract surgery
- YAG (Laser for Secondary/Recurring Cataracts) Capsulotomy

### Preauthorization requirements

Preauthorization for the above referenced cataract procedures is required for all members with a Medicare Advantage Individual or Group plan residing in the state of Georgia, unless otherwise noted below.

Please note; all services still have to meet all coverage, benefit, and network requirements.

iCare Health Solutions does not review preauthorization requests for the following:

- Healthcare providers who participate in an independent practice association (IPA) or other risk network with delegated services. These providers should refer to their IPA or risk network for guidance on processing preauthorization requests
- Commercial plans
- Medicaid plans
- Medicare plans outside of Georgia

### Please note:

Preauthorization is not a requirement for patients with Medicare Advantage private fee-for-service coverage. However, notification is requested for these plans, as it can help coordinate care for your patients.

### Submitting a preauthorization request

Preauthorization requests can be submitted online or by fax:

- Online: iCare Health Solutions portal – [ehealthdeck.com/](https://ehealthdeck.com/)
- By fax: 305-675-8010
