

Get insight into your patients' health environment, while ensuring continuity of care.

Humana's home-based services support you in helping your patients achieve their best health.

Home care is a beneficial addition to the patient experience, not a replacement of your care. Extending healthcare into the home increases patient choice, reduces hospitalizations and total cost of care. It improves quality of life and helps you ensure continuity of care.

Humana provides a wide range of home-based solutions to support you and your patients:

- Preventive and primary care
- Urgent medical care
- Skilled nursing care, durable medical equipment and infusion therapy
- Palliative and hospice care

Whether it's a single solution to complete your treatment plan or a more holistic approach to comprehensive care management, our home care solutions make better outcomes and experiences more accessible for all.

Home-based care helps you:

Close the loop

- Accurate, readily available patient information/data sharing
- Seamless care coordination
- Follow-up treatment protocols

Promote patient health, healing, and overall happiness

- Fewer hospital admissions and emergency room visits
- Reduced total cost of care
- More patient choice, personalization
- Improved comfort and safety

Gain insight into health barriers

- Social determinants of health issues and care gaps
- Medication and treatment plan adherence

Improve health outcomes

- More holistic, integrated approach to care

Care solutions that span your patients' needs

Humana helps you provide connected, whole-person care—from diagnosis to recovery to everyday health. You have the freedom to select which solutions you and your patients need.

Preventive care and coordination

Acute care

Advanced illness and care planning

Heal | HealHumana.com

Value-based in-home preventive and primary care (including same-day appointments if needed)

In-home Health and Well-being Assessment | Humana.com/HomeVisit

Includes a head-to-toe assessment with a licensed medical professional—right in the patient's home.

Care management | Humana.com/AtHome

Care management support services for patients covered under MAPD (Medicare Advantage plan with Medicare Part D) and/or Special Needs Plans.

Kindred at Home® | KindredatHome.com

With your referral, Kindred at Home clinicians can help your patients recover, manage their conditions and maintain independence – all in the comfort and safety of home. Kindred at Home provides a full range of in-home care services, including nursing, physical, occupational and speech therapy, assistance with daily activities, and a variety of specialties.

Onehome | onehome.health.com

onehome is the national leader for combining the capabilities of a healthcare benefits manager and an at-risk provider into a value-based care solution. onehome arranges for quality home health care through their wholly-owned and referred networks. They also provide DME, infusion services, and innovative care programs for patients in the comfort of their homes. This care coordination supports the patient from referral to discharge and ultimately, recovery.

DispatchHealth® urgent medical care | Humana.com/DispatchHealth

DispatchHealth offers same-day care for non-life-threatening, but severe, illnesses and injuries requiring complex interventions such as on-site labs and IV medications.

MyDirectives® | Humana.com/health-and-well-being/advance-directives

This platform helps patients ensure their wishes are met in case of illness by creating a living will online in just a few simple steps.

Palliative care | aspirehealthcare.com

Palliative care services, through partners such as Aspire and Pallitus, provide spiritual, and emotional support to patients with advanced illness.

Hospice services | kindredathome.com/individuals/services/hospice

Kindred at Home hospice care provides medical, emotional and spiritual support in the home, enabling your patients and their families to focus on what's truly important when life matters most.

Note: Some providers and programs are not available in every market.
