

IRS Form 1095-B For Members with Insurance through their Employer

Beginning with the 2019 tax year, the IRS penalty for not having health coverage was reduced to zero. Therefore, most individuals no longer need the information on the Form 1095-B to file a federal income tax return.

Only members living in states with laws that require reporting of health coverage will continue to automatically receive a paper copy of the Form 1095-B for state tax filing purposes¹. However, Form 1095-B will still be available for all Humana fully insured members and some members covered by a level-funded premium plan² no later than the annual deadline set by the IRS.

If you would like to receive Form 1095-B, you may request a copy using one of the methods listed below. (Please note that if your address has changed in the last year, you must call Humana to request a printed copy of Form 1095-B.)³
